## Common European Drug Database Project

The Common European Drug Database (CEDD) project is an initiative of the National Health Insurance Fund Administration of Hungary to provide reliable and updated information on prices of all reimbursed pharmaceuticals of the Member States of the European Union for the competent authorities and for the public and to facilitate the comparison of drug prices not only in case of individual products but even in a systematic way.

The project makes easy the cross-country price comparison of pharmaceuticals according to product names or ATC codes.

<http://cedd.oep.hu> is the pilot website of CEDD project with the contribution of the competent authorities of seven countries already:

- Finland
- Hungary
- Ireland
- Lithuania
- Poland
- Slovakia
- Slovenia
